

13th September 2022

Dear Parents/Carers of Year 13,

I am delighted to inform you that we have made a smooth start to Year 13 this year. The atmosphere for learning has been remarkable and students have been focused on their studies from day one, utilising all available resources to ensure the best progress.

To support Year 13 with tracking their progress, we have **mock exams scheduled for the weeks of 21st and 28th November**. These exams will produce the final UCAS predicted grades so it is important that students prepare as best as possible, treating them as seriously as they would their final exams.

Please continue to support your son/daughter by talking to them about their school work, encouraging them to stick to a study schedule and ensuring they have a suitable space to study in the home. The school study facilities are also available from 8am – 6pm daily. We encourage students to seek support from their teachers and the sixth form team to assist their learning and exam preparation.

Should you have any concern regarding the above, please do not hesitate to get in touch with the sixth form team by calling us on 020 7987 1883.

Best regards,

Hasika Bhudia (Head of Sixth Form)
