

SPWT Parent Information Online Learning Resources for Students

Online learning is an excellent way for students to access additional learning resources, which they can engage with in the comfort of their own home and at a pace that suits them. It also allows parents to see what their child is learning and encourages more parental engagement. At SPWT, teachers actively encourage students to use online learning resources to support independent learning. The websites below are some online learning resources which students have access to and are encouraged to use to support learning:

ENGLISH:

| | |
